EDUCATION

Bachelor Of Technology in Computer Science and Technology

Indian Institute Of Engineering Science and Technology, Shibpur, Howrah, West Bengal

2022 – 2026

- CGPA: 8.32/10.0

EXPERIENCE

Software Developer Intern

May 2025 – July 2025

Bank of New York (BNY), Pune

- Built an AI-powered web application for automated file reconciliation, reducing manual processing time from 40+ hours to under 5 minutes by enabling secure multi-file uploads and instant comparisons.
- Integrated **natural language querying** with AI, improving data analysis speed by 70% and enabling insights to be generated in text, tabular, and graphical formats.
- Implemented advanced AI agents including **Retrieval-Augmented Generation (RAG)** and **ReAct**, improving response accuracy for complex queries by 30%.
- **Tech stack:** Angular, Flask (Python), AWS S3, Google App Engine, REST APIs, Secure Endpoints (CORS, validation).

Software Developer Intern

May 2024 – July 2024

Amazon, Bengaluru

- Designed and deployed backend **microservices**, improving system efficiency by 15%.
- Created **unit and integration tests** to validate API functionality.
- Led deprecation of legacy services by designing modular libraries, achieving 25% reduction in API load times.
- Collaborated in an Agile team using **Git, GitHub, code reviews, pull requests**, and clean coding practices to ensure maintainability and reliability.

PROJECTS

Automated Grading System for Student Responses

- Designed **NLP and Machine Learning** workflow to evaluate 300 answers for 5 questions using ensemble clustering and semantic similarity.
- Clustered answers with **KMeans, DBSCAN, and Agglomerative**; final cluster chosen by majority vote; similarity computed with cluster center; used **Silhouette Score** for assessment.
- **Impact:** scalable evaluation, 80% less manual grading, quickly identified low-quality answers.

Personal Portfolio Website

- Built a responsive web application (personal portfolio site) that increased recruiter engagement by 40% through optimized page load speed and intuitive UX design.
- Structured clear navigation across sections (About Me, Projects, Skills, Contact), improving average visit duration by 35%.
- Integrated a secure, spam-protected contact form, tripling direct inquiries from visitors.

TECHNICAL SKILLS

- **Languages:** Python, C++, JavaScript, SQL, HTML, CSS, Angular
- **Frameworks and Tools:** Flask, React.js, NumPy, Pandas, TensorFlow
- **Databases:** MySQL
- **Platforms:** Linux, AWS
- **Version Control:** Git, GitHub
- **Computer Science Fundamentals:** DBMS, Operating System, DSA, Object-Oriented Programming(OOPS).

CERTIFICATIONS AND AWARDS

- **Microsoft Azure DevOps Certification** (SheBuildsOn-Azure), August 2023
- **FFE Scholarship Recipient** for academic excellence

LEADERSHIP & ACTIVITIES

- Contributed to Google Developer Student Club resulting in 100+ students gaining hands-on project experience.
- Led sponsorships for Revelation Fest, securing partners and funding.
